Subject Index, Volume 167

Abdomen
Abdominal complications following cardiac surgery; 553
Early recognition of neonatal abdominal wall necrotizing fasciitis; 481
Effectiveness of ceftriaxone versus cefoxitin in reducing chest and wound infections after upper abdominal operations; 391
Peritoneal fluid lactic acid and diagnostic dilemmas in acute abdominal disease; 302
Superiority of aztreonam/clindamycin compared with gentamicin/clindamycin in patients with penetrating abdominal trauma; 291
The role of abdominal drainage after major hepatic resection; 593

Acid-output patterns
Gastric emptying and acid-output patterns following a suprapapillary duodeno-jejunostomy reconstruction with differing lengths of the afferent limb in the baboon; 322

Ampullary stenosis
The treatment of ampullary stenosis by endoscopic sphincterotomy; 493

Anal
Prospective evaluation of anal sphincter function after ileal pouch-anal canal anastomosis; 558

Anastomosis
Stapled ileoanal anastomosis without a temporary ileostomy; 58

Anorectal
Prolonged ambulatory recording of anorectal motility in patients with slow-transit constipation; 73

Anti-TNF-α polyclonal antibody
Amelioration of the physiologic and biochemical changes of acute pancreatitis using an anti-TNF-α polyclonal antibody; 214

Antibiotic therapy
Peritoneal cultures and antibiotic therapy in pediatric perforated appendicitis; 313

Aortic aneurysm resection
Experience with thoracoabdominal aortic aneurysm resection; 501

Aortofemoral
Aortoiliac and aortofemoral reconstruction for obstructive disease; 379

Aortoiliac
Aortoiliac and aortofemoral reconstruction for obstructive disease; 379

Appendicitis
Peritoneal cultures and antibiotic therapy in pediatric perforated appendicitis; 313

Arterialization
The recipient splenic artery for arterialization in orthotopic liver transplantation; 327

Aztreonam/clindamycin
Superiority of aztreonam/clindamycin compared with gentamicin/clindamycin in patients with penetrating abdominal trauma; 291

Bacterial translocation
Plasmid labeling confirms bacterial translocation in pancreatitis; 201
Total parenteral nutrition, bacterial translocation, and host immune function; 145

Barrett's epithelium
Clinical implication of p53 gene mutation in the progression of Barrett's epithelium to invasive esophageal cancer; 52

Barrett's esophagus
Childhood Barrett's esophagus under the microscope; 287

Biliary
Alkaline gastroesophageal reflux: assessment by ambulatory esophageal aspiration and pH monitoring; 163
Carcinoembryonic antigen (CEA) and CEA-related substances in the bile of patients with biliary diseases; 306
Characteristics of biliary tract complications during laparoscopic cholecystectomy: a multi-institutional study; 27

Bleeding
A simple method to control intractable bleeding after endoscopic sphincterotomy; 277

Bowel
Induction of chronic graft-versus-host disease in a rat model after transplantation of sensitized small bowel allografts; 579

Breast
Growth factor profiles in breast cyst fluid identify women with increased breast cancer risk; 523
Sarcoma and *Cystosarcoma phyllodes* tumors of the breast—a retrospective review of 58 cases; 477
Screening mammography in British Columbia: 1988-1993; 490
Tumor registry audit of mammography in community practice; 505

Calorimetry
Appropriate interpretation of indirect calorimetry for determining energy expenditure of patients in intensive care units; 547

Cancer
Differentiation of thyroid neoplasms by evaluating epithelial membrane antigen, leu-7 antigen, epidermal growth factor receptor and DNA content; 531
Growth factor profiles in breast cyst fluid identify women with increased breast cancer risk; 523
Perioperative immunomodulation in cancer surgery; 174

Carcinoembryonic antigen
Carcinoembryonic antigen (CEA) and CEA-related substances in the bile of patients with biliary diseases; 306

Cardiac
Abdominal complications following cardiac surgery; 553
Vascular complications of cardiac catheterization; 375

Carotid endarterectomy
Optimal outcome for "high-risk" carotid endarterectomy; 469

Cefoxitin
Effectiveness of ceftriaxone versus cefoxitin in reducing chest and wound infections after upper abdominal operations; 391

Ceftriaxone
Effectiveness of ceftriaxone versus cefoxitin in reducing chest and wound infections after upper abdominal operations; 391

Cell growth
Transforming growth factor-β inhibits rat intestinal cell growth by regulating cell cycle specific gene expression; 14

Cervical
Transcervical gunshot injuries; 309

Cholangiography
Routine intraoperative cholangiography and its contribution to the selective cholangiographer; 464

Cholecystectomy
Characteristics of biliary tract complications during laparoscopic cholecystectomy: a multi-institutional study; 27
Factors determining conversion to laparotomy in patients undergoing laparoscopic cholecystectomy; 35

Role of laparoscopic cholecystectomy in the management of acute gallstone pancreatitis; 42
Routine intraoperative cholangiography and its contribution to the selective cholangiographer; 464
The need to retrieve the dropped stone during laparoscopic cholecystectomy; 608

Choledochal cysts
Surgical management of choledochal cysts; 497

Chromosome 11
Putative tumor suppressor gene on chromosome 11 is important in sporadic endocrine tumor formation; 180

Colitis
Restorative proctocolectomy and indeterminate colitis; 516

Coloanal anastomosis
Long-term functional results of coloanal anastomosis for rectal cancer; 90

Colon
Colonic mucosal replacement by syngeneic small intestinal stem cell transplantation; 67

Colorectal cancers
Prostaglandin E_2 levels and lymphocyte subsets in portal venous drainage of colorectal cancers; 264
Profile of colorectal cancer at a community hospital with a multiethnic population; 509

Complications
Estimation of risk of major complications after hepatic resection; 399

Computed tomography
Thin-section contrast-enhanced computed tomography accurately predicts the resectability of malignant pancreatic neoplasms; 104

Constipation
Prolonged ambulatory recording of anorectal motility in patients with slow-transit constipation; 73

Cost
Economics of health care reform; 236
Health care reform: identifying some cost culprits; 223

***Cystosarcoma phyllodes* tumors**
Sarcoma and *Cystosarcoma phyllodes* tumors of the breast—a retrospective review of 58 cases; 477

Czech Republic
Economic and medical directions in the Czech Republic and Hungary; 246

Dexamethasone
Dexamethasone increases jejunal glutamine synthetase expression via translational regulation; 8

Diabetic foot ulcers
Effect of metatarsal head resection for diabetic foot ulcers on the dynamic plantar pressure distribution; 297

Diverticulitis
Acute diverticulitis under age forty; 562

Duodenal ulcer
Prepyloric antrectomy, truncal vagotomy, and front pylorotomy for the treatment of duodenal ulcer; 279

Economics
Economic and medical directions in the Czech Republic and Hungary; 246
Economics of health care reform; 236
Health care reform: identifying some cost culprits; 223

Education
A pilot experience with competency-based clinical skills assessment in a surgical clerkship; 604
Lectures by neurosurgery and neurology faculty at U.S. medical schools; 342
Practice environment and resident operative experience; 418
Reliability and construct validity of a structured technical skills assessment form; 423
Surgical educators and the contemporary training of generalists; 337

Electrocautery
Electrocautery used to create incisions does not increase wound infection rates; 601

Endocrine tumor
Putative tumor suppressor gene on chromosome 11 is important in sporadic endocrine tumor formation; 180

Endoscopy
A simple method to control intractable bleeding after endoscopic sphincterotomy; 277
The treatment of ampullary stenosis by endoscopic sphincterotomy; 493

Endotoxin
Treatment of sepsis by extracorporeal elimination of endotoxin using polymyxin B-immobilized fiber; 412

Erythromycin
Erythromycin strengthens the defective lower esophageal sphincter in patients with gastroesophageal reflux disease; 169

Esophageal
Erythromycin strengthens the defective lower esophageal sphincter in patients with gastroesophageal reflux disease; 169
Esophageal cancer; Clinical implication of p53 gene mutation in the progression of Barrett's epithelium to invasive esophageal cancer; 52
Gastroesophageal reflux disease is associated with enteric hormone abnormalities; 186

Esophagogastrectomy
Long-term results of radical esophagogastrectomy for bleeding varices due to unshuntable extrahepatic portal hypertension; 96

Ethics
The Christopher Robin syndrome; 461

Extrahepatic portal hypertension
Long-term results of radical esophagogastrectomy for bleeding varices due to unshuntable extrahepatic portal hypertension; 96

Fab fragment
Use of the Fab fragment for immunoneutralization of somatostatin in the isolated perfused human pancreas; 114

Fasciotomies
Shoelace technique for delayed primary closure of fasciotomies; 435

Fibrosarcoma
Fibrosarcoma of the head and neck; 437

Fistula
Successful treatment of horseshoe fistula requires deroofing of deep postanal space; 513

Fundoplication
Spectrum of gastrointestinal symptoms after laparoscopic fundoplication; 538

Gallstones
Role of laparoscopic cholecystectomy in the management of acute gallstone pancreatitis; 42
The need to retrieve the dropped stone during laparoscopic cholecystectomy; 608

Gastrectomy
Ten-year follow-up of a prospective, randomized trial of selective proximal vagotomy with ulcer excision and partial gastrectomy with gastroduodenostomy for treating corporeal gastric ulcer; 596

Gastric
Association of perioperative transfusions with poor outcome in resection of gastric adenocarcinoma; 256
Gastric emptying and acid-output patterns following a suprapapillary duodeno-jejunostomy reconstruction with differing lengths of the afferent limb in the baboon; 322

Gastrin (CCK-B) receptors
Novel expression of gastrin (CCK-B) receptors in pancreatic carcinomas and dysplastic pancreas from transgenic mice; 120

Gastroesophageal
Alkaline gastroesophageal reflux: assessment by ambulatory esophageal aspiration and pH monitoring; 163
Erythromycin strengthens the defective lower esophageal sphincter in patients with gastroesophageal reflux disease; 169
Gastroesophageal reflux disease is associated with enteric hormone abnormalities; 186

Gastrointestinal
New directions in gastrointestinal surgery; 2
Spectrum of gastrointestinal symptoms after laparoscopic fundoplication; 538

Gastrostomy
Laparoscopic gastrostomy using four-point fixation; 273

Gentamicin/clindamycin
Superiority of aztreonam/clindamycin compared with gentamicin/clindamycin in patients with penetrating abdominal trauma; 291

Graft-versus-host disease
Induction of chronic graft-versus-host disease in a rat model after transplantation of sensitized small bowel allografts; 579

Groin hernia
Patch or plug for groin hernia—which?; 331

Growth factor
Growth factor profiles in breast cyst fluid identify women with increased breast cancer risk; 523

Growth factor-β
Transforming growth factor-β inhibits rat intestinal cell growth by regulating cell cycle specific gene expression; 14

Gunshot injuries
Transcervical gunshot injuries; 309

Hawaii
Reflections on national health care reform based on Hawaii's experience; 227

Head
Fibrosarcoma of the head and neck; 437

Health care reform
Economics of health care reform; 236
Health care reform: identifying some cost culprits; 223
Health systems planning at a state level: New Jersey; 241
National health care reform: what are the issues? Where are we going?; 222
Reflections on national health care reform based on Hawaii's experience; 227
Summary proceedings and consensus conference, discussions; 244
Survey of health planning proposals; 232

Hemodialysis
The brachioaxillary interposition graft as a successful tertiary vascular access procedure for hemodialysis; 615
Thrombolysis versus thrombectomy for occluded hemodialysis grafts; 473

Hepatectomy
Contrasting effects of identical nutrients given parenterally or enterally after 70% hepatectomy; 135

Hepatic
Estimation of risk of major complications after hepatic resection; 399
Induction of hepatic system y^+-mediated ^{L}-arginine transport by prostaglandin E_2; 128
Role of staging laparoscopy in the treatment of hepatic malignancy; 151

Hepatocellular carcinoma
Liver transplantation for hepatocellular carcinoma; 317

Hernia
Laparoscopic hernia repair; 535
Obturator hernia presenting as small bowel obstruction; 396
Patch or plug for groin hernia—which?; 331

Hill repair
Early results with the laparoscopic Hill repair; 542

Hormones
Gastroesophageal reflux disease is associated with enteric hormone abnormalities; 186

Horseshoe fistula
Successful treatment of horseshoe fistula requires deroofing of deep postanal space; 513

Host immune function
Total parenteral nutrition, bacterial translocation, and host immune function; 145

How I do it
A simple method to control intractable bleeding after endoscopic sphincterotomy; 277
Patch or plug for groin hernia—which?; 331
Shoelace technique for delayed primary closure of fasciotomies; 435
The brachioaxillary interposition graft as a successful tertiary vascular access procedure for hemodialysis; 615
The recipient splenic artery for arterialization in orthotopic liver transplantation; 327

Hungary
Economic and medical directions in the Czech Republic and Hungary; 246

Hyperbaric oxygen therapy
A multicenter review of the treatment of major truncal necrotizing infections with and without hyperbaric oxygen therapy; 485

Ileal transport
Luminal adrenergic agents modulate ileal transport: discrimination between α_1 and α_2 receptors; 156

Ileostomy
Loop ileostomy for temporary fecal diversion; 519
Stapled ileoanal anastomosis without a temporary ileostomy; 58

Immunomodulation
Perioperative immunomodulation in cancer surgery; 174

Infection
A multicenter review of the treatment of major truncal necrotizing infections with and without hyperbaric oxygen therapy; 485
Early recognition of neonatal abdominal wall necrotizing fasciitis; 481
Effectiveness of ceftriaxone versus cefoxitin in reducing chest and wound infections after upper abdominal operations; 391
Electrocautery used to create incisions does not increase wound infection rates; 601
Nosocomial blood-borne infection secondary to intravascular devices; 268
Pneumonia in the surgical intensive care unit: factors determining successful outcome; 250
Treatment of sepsis by extracorporeal elimination of endotoxin using polymyxin B-immobilized fiber; 412

Intensive care
Pneumonia in the surgical intensive care unit: factors determining successful outcome; 250

Intestinal
Colonic mucosal replacement by syngeneic small intestinal stem cell transplantation; 67
Diagnosis of intestinal ischemia using a noncontact superconducting quantum interference device; 586

Dynamic role of microfilaments in intestinal chloride secretion; 21
Peptide YY augments postprandial small intestinal absorption in the conscious dog; 570
Serum D(-)-lactate levels as an aid in the diagnosis of acute intestinal ischemia; 575
Transforming growth factor-b inhibits rat intestinal cell growth by regulating cell cycle specific gene expression; 14

Intravascular devices
Nosocomial blood-borne infection secondary to intravascular devices; 268

Jejunum
Motor activity and transit in the autonomically denervated jejunum; 80

Lactate
Serum D(-)-lactate levels as an aid in the diagnosis of acute intestinal ischemia; 575

Laparascopy
Characteristics of biliary tract complications during laparoscopic cholecystectomy: a multi-institutional study; 27
Early results with the laparoscopic Hill repair; 542
Factors determining conversion to laparotomy in patients undergoing laparoscopic cholecystectomy; 35
Laparoscopic gastrostomy using four-point fixation; 273
Laparoscopic hernia repair; 535
Laparoscopic Nissen fundoplication: operative results and short-term follow-up; 193
Laparoscopic splenectomy; 611
Role of laparoscopic cholecystectomy in the management of acute gallstone pancreatitis; 42
Role of staging laparoscopy in the treatment of hepatic malignancy; 151
Spectrum of gastrointestinal symptoms after laparoscopic fundoplication; 538
The need to retrieve the dropped stone during laparoscopic cholecystectomy; 608

Laparotomy
Factors determining conversion to laparotomy in patients undergoing laparoscopic cholecystectomy; 35

Leukotriene
Leukotriene C4 regulation of splanchnic blood flow during ischemia; 566

Liver
Contrasting effects of identical nutrients given parenterally or enterally after 70% hepatectomy; 135
Experience with cuff rearterialization in 600 orthotopic liver grafts in the rat; 360
Induction of hepatic system y^+-mediated L-arginine transport by prostaglandin E_2; 128
Role of staging laparoscopy in the treatment of hepatic malignancy; 151
The role of abdominal drainage after major hepatic resection; 593

Liver transplantation
Liver transplantation for hepatocellular carcinoma; 317
The recipient splenic artery for arterialization in orthotopic liver transplantation; 327

Loop ileostomy
Loop ileostomy for temporary fecal diversion; 519

Luminal adrenergic agents
Luminal adrenergic agents modulate ileal transport: discrimination between α_1 and α_2 receptors; 156

Magnetometry
Diagnosis of intestinal ischemia using a noncontact superconducting quantum interference device; 586

Mammography
Screening mammography in British Columbia: 1988-1993; 490
Tumor registry audit of mammography in community practice; 505

Melanoma
Patient- and treatment-related factors associated with acute regional toxicity after isolated perfusion for melanoma of the extremities; 618

Metatarsal
Effect of metatarsal head resection for diabetic foot ulcers on the dynamic plantar pressure distribution; 297

Microfilaments
Dynamic role of microfilaments in intestinal chloride secretion; 21

Molecular biology
Molecular mechanisms involved in tumorigenesis and their surgical implications; 428

Neck
Fibrosarcoma of the head and neck; 437

Necrotizing fasciitis
Early recognition of neonatal abdominal wall necrotizing fasciitis; 481

Neonatal
Early recognition of neonatal abdominal wall necrotizing fasciitis; 481

Neoplasms
Differentiation of thyroid neoplasms by evaluating epithelial membrane antigen, leu-7 antigen, epidermal growth factor receptor and DNA content; 531

Neurology
Lectures by neurosurgery and neurology faculty at U.S. medical schools; 342

Neurosurgery
Lectures by neurosurgery and neurology faculty at U.S. medical schools; 342

Neutrophils
Enhanced attachment and elastase-releasing capacity of neutrophils after surgery; 405

New Jersey
Health systems planning at a state level: New Jersey; 241

Nissen fundoplication
Laparoscopic Nissen fundoplication: operative results and short-term follow-up; 193

Nosocomial infection
Nosocomial blood-borne infection secondary to intravascular devices; 268

Nutrition
Contrasting effects of identical nutrients given parenterally or enterally after 70% hepatectomy; 135
Total parenteral nutrition, bacterial translocation, and host immune function; 145

Obstructive disease
Aortoiliac and aortofemoral reconstruction for obstructive disease; 379

Obturator hernia
Obturator hernia presenting as small bowel obstruction; 396

Outcome
Pneumonia in the surgical intensive care unit: factors determining successful outcome; 250
Association of perioperative transfusions with poor outcome in resection of gastric adenocarcinoma; 256

p53 gene mutation
Clinical implication of p53 gene mutation in the progression of Barrett's epithelium to invasive esophageal cancer; 52

Pancreas
Amelioration of the physiologic and biochemical changes of acute pancreatitis using an anti-TNF-α polyclonal antibody; 214
Normal pancreatic dimensions in the adult human; 261
Novel expression of gastrin (CCK-B) receptors in pancreatic carcinomas and dysplastic

pancreas from transgenic mice; 120
Pancreatic cancer palliation: using tumor stage to select appropriate operation; 208
Plasmid labeling confirms bacterial translocation in pancreatitis; 201
Role of laparoscopic cholecystectomy in the management of acute gallstone pancreatitis; 42
Thin-section contrast-enhanced computed tomography accurately predicts the resectability of malignant pancreatic neoplasms; 104
Use of the Fab fragment for immunoneutralization of somatostatin in the isolated perfused human pancreas; 114

Pediatric
Peritoneal cultures and antibiotic therapy in pediatric perforated appendicitis; 313

Pelvic exenteration
The role of palliative pelvic exenteration; 386

Peptide
Peptide YY augments postprandial small intestinal absorption in the conscious dog; 570

Perfusion
Patient- and treatment-related factors associated with acute regional toxicity after isolated perfusion for melanoma of the extremities; 618

Peritoneal cultures
Peritoneal cultures and antibiotic therapy in pediatric perforated appendicitis; 313

Peritoneal fluid lactic acid
Peritoneal fluid lactic acid and diagnostic dilemmas in acute abdominal disease; 302

pH monitoring
Alkaline gastroesophageal reflux: assessment by ambulatory esophageal aspiration and pH monitoring; 163

Plantar
Effect of metatarsal head resection for diabetic foot ulcers on the dynamic plantar pressure distribution; 297

Plasmid labeling
Plasmid labeling confirms bacterial translocation in pancreatitis; 201

Pneumonia
Pneumonia in the surgical intensive care unit: factors determining successful outcome; 250

Pneumoperitoneum
Physiologic effects of pneumoperitoneum; 281

Polymyxin B-immobilized fiber
Treatment of sepsis by extracorporeal elimination of endotoxin using polymyxin B-immobilized fiber; 412

Prepyloric antrectomy
Prepyloric antrectomy, truncal vagotomy, and front pylorotomy for the treatment of duodenal ulcer; 279

Proctocolectomy
Restorative proctocolectomy and indeterminate colitis; 516

Prostaglandin
Induction of hepatic system y^+-mediated L-arginine transport by prostaglandin E_2; 128
Prostaglandin E_2 levels and lymphocyte subsets in portal venous drainage of colorectal cancers; 264

Pylorotomy
Prepyloric antrectomy, truncal vagotomy, and front pylorotomy for the treatment of duodenal ulcer; 279

Rearterialization
Experience with cuff rearterialization in 600 orthotopic liver grafts in the rat; 360

Rectal cancer
Long-term functional results of coloanal anastomosis for rectal cancer; 90

Residents
Practice environment and resident operative experience; 418;

Sarcoma
Sarcoma and *Cystosarcoma phyllodes* tumors of the breast—a retrospective review of 58 cases; 477

Sepsis
Treatment of sepsis by extracorporeal elimination of endotoxin using polymyxin B-immobilized fiber; 412

Skills assessment
A pilot experience with competency-based clinical skills assessment in a surgical clerkship; 604
Reliability and construct validity of a structured technical skills assessment form; 423

Small bowel
Obturator hernia presenting as small bowel obstruction; 396

Somatostatin
Use of the Fab fragment for immunoneutralization of somatostatin in the isolated perfused human pancreas; 114

Sphincter
Prospective evaluation of anal sphincter function after ileal pouch-anal canal anastomosis; 558

Sphincterotomy
The treatment of ampullary stenosis by endoscopic sphincterotomy; 493
A simple method to control intractable bleeding after endoscopic sphincterotomy; 277

Spleen
Laparoscopic splenectomy; 611

Suppressor genes
Putative tumor suppressor gene on chromosome 11 is important in sporadic endocrine tumor formation; 180

Suprapapillary duodeno-jejunostomy
Gastric emptying and acid-output patterns following a suprapapillary duodeno-jejunostomy reconstruction with differing lengths of the afferent limb in the baboon; 322

Surgical education
A pilot experience with competency-based clinical skills assessment in a surgical clerkship; 604
Lectures by neurosurgery and neurology faculty at U.S. medical schools; 342
Practice environment and resident operative experience; 418
Reliability and construct validity of a structured technical skills assessment form; 423
Surgical educators and the contemporary training of generalists; 337

Surgical heritage
Ambroise Paré and the King's mastoiditis; 440
Lester R. Dragstedt and his role in the evolution of therapeutic vagotomy in the United States; 344

Technical skills assessment
Reliability and construct validity of a structured technical skills assessment form; 423

Thrombectomy
Thrombolysis versus thrombectomy for occluded hemodialysis grafts; 473

Thrombolysis
Thrombolysis versus thrombectomy for occluded hemodialysis grafts; 473

Thyroid
Differentiation of thyroid neoplasms by evaluating epithelial membrane antigen, leu-7 antigen, epidermal growth factor receptor and DNA content; 531

Toxicity
Patient- and treatment-related factors associated with acute regional toxicity after isolated perfusion for melanoma of the extremities; 618

Transfusions
Association of perioperative transfusions with poor outcome in resection of gastric adenocarcinoma; 256

Transplant
Induction of chronic graft-versus-host disease in a rat model after transplantation of sensitized small bowel allografts; 579

Trauma
Superiority of aztreonam/clindamycin compared with gentamicin/clindamycin in patients with penetrating abdominal trauma; 291
Transcervical gunshot injuries; 309

Truncal vagotomy
Prepyloric antrectomy, truncal vagotomy, and front pylorotomy for the treatment of duodenal ulcer; 279

Tumor
Pancreatic cancer palliation: using tumor stage to select appropriate operation; 208

Tumorigenesis
Molecular mechanisms involved in tumorigenesis and their surgical implications; 428

Ulcer
Ten-year follow-up of a prospective, randomized trial of selective proximal vagotomy with ulcer excision and partial gastrectomy with gastroduodenostomy for treating corporeal gastric ulcer; 596

Vagotomy
Ten-year follow-up of a prospective, randomized trial of selective proximal vagotomy with ulcer excision and partial gastrectomy with gastroduodenostomy for treating corporeal gastric ulcer; 596
Lester R. Dragstedt and his role in the evolution of therapeutic vagotomy in the United States; 344

Vascular
The brachioaxillary interposition graft as a successful tertiary vascular access procedure for hemodialysis; 615
Vascular complications of cardiac catheterization; 375
